

PAYORS INCLUDED ON COMPAREMAINE

LAST UPDATED: NOVEMBER 17, 2023

OVERVIEW

The average total payments on CompareMaine come from the State of Maine's All-Payer Claims Database (APCD). For version 12.0, we reviewed over 19 million claims from 28 health insurance plans that covered healthcare services and procedures provided in Maine from April 1, 2022 – March 31, 2023. CompareMaine does not include information on the uninsured. However, effective January 1, 2014, a provision in the Affordable Care Act addresses what some hospitals may charge individuals eligible for financial assistance for emergency and medically necessary care. At this time, these analyses do not include people with Medicare or Medicaid (MaineCare). After these claims were excluded, a total of 9,852,602 claims from 28 payors were analyzed.
